

Deputy Director (Administration)

ATTN : Acting Chief, Organization and Methods Service
Assistant Director for Operations

Request for Change in the FDD Table of Organization

1. It has become operationally necessary to have at least one highly qualified professional linguist within FDD act as linguistic advisor, researcher in linguistic matters from a reference and technical viewpoint and as trouble-shooter on exotic languages and special linguistic problems. Such a person must have at his command 15 to 20 languages.

2. As such a position does not fit in entirely with the functions of any one of the branches of FDD, it is proposed that slot #28202 be removed from the Near East/Africa Branch and established as a GS-12, Intelligence Officer position under the Office of the Chief, FDD.

3. It is requested that you approve this transfer of slot as soon as possible.
